PP-P1000 (Point-and-Shoot)

Resolution: 24.2MP

Sensor Type: APS-C

ISO Range: 100-25600

Display: 3.0-inch LCD

Video Resolution: 4K UHD at 30fps

Battery Life: 700 shots per charge

3. Key Features

- High-Resolution Sensor: Capture detailed images with 24.2MP resolution.
- Fast Autofocus: Quick and accurate focusing for sharp photos.
- 4K Video Recording: Record high-quality videos with stunning clarity.

4. Setup and Installation

Step-by-step instructions for setting up your PhotoPro camera:

1. Insert the battery and memory card.
2. Attach the lens and remove the lens cap.
3. Power on the camera and set the date and time.
4. Adjust the settings according to your shooting preference.

5. Usage Instructions

Guidelines on using various features and optimizing performance:

- Use the mode dial to switch between different shooting modes.
- Adjust ISO, aperture, and shutter speed for better exposure.
- Use the viewfinder or LCD screen to compose your shots.

6. Maintenance and Care

Tips for keeping your camera in top condition:

- Clean the lens and sensor regularly to avoid dust and smudges.
- Store the camera in a dry place and use a camera bag for protection.
- Update the firmware periodically for improved performance.

7. Troubleshooting

Common issues and their solutions:

Problem: Blurry Images

Solution: Check the focus settings and use a tripod for stability.

Problem: Camera Not Powering On

Solution: Ensure the battery is charged and properly inserted.

Problem: Memory Card Error

Solution: Format the memory card in the camera and check for compatibility.
